

Prague, September 27th 2016

Dear Madam, dear Sir,

Manager of Campus France in Prague, I am in charge of promoting studies in France for Czech students, helping them finding study programs (and scholarships for Czech students who wish to apply for a master degree or a PhD) and filing out applications, as well as general assistance with various administrative processes regarding French student life (accommodation, etc...).

Fall semester is usually the time when students start to think about their project for next year, and some universities and schools' application deadlines are very early.

In order to inform Czech students about studies in France, I participate in various student events, and make presentations at universities on a regular basis.

Therefore, if you have students potentially interested in going to study in France, I would be very happy to make a presentation at your university, at any date that is convenient for you.

In order to provide them with the most suitable information, please contact me by email (magali.gente@ifp.cz) or by phone (00420 221 401 058) with the following information:

- Level of study
- Area of study
- Level of French (if any)
- Date preferred for the presentation.

I remain at your disposal for any additional information.

Best regards,

Magali Gente
