Authorship
The PBE conference follows the recommendations of the International Committee of Medical Journal Editors (ICMJE). It recommends that authorship be based on the following four criteria:
1. Substantial contributions to the conception or design of the work; or the acquisition, analysis, or interpretation of data for the work; AND
2. Drafting the work or revising it critically for important intellectual content; AND
3. Final approval of the version to be published; AND
4. Agreement to be accountable for all aspects of the work in ensuring that questions related to the accuracy or integrity of any part of the work are appropriately investigated and resolved.

☐ We attest that all authors contributed significantly to the creation of this manuscript, each having fulfilled criteria.
☐ One or more listed authors do(es) not meet the ICMJE criteria.
We believe these individuals should be listed as authors because:
